SUMMARY

The proposed amendment would authorize the Legislature to substitute for the present system of flat or uniform personal income tax rates a system of rates graduated according to the total amount of income received. The Legislature would also be authorized to provide for reasonable exemptions, deductions, credits, and abatements and could base Massachusetts income tax provisions on provisions of Federal income tax law.

SUMMARY

The proposed amendment would authorize the Legislature to substitute for the present system of flat or uniform personal income tax rates a system of rates graduated according to the total amount of income received. The Legislature would also be authorized to provide for reasonable exemptions, deductions, credits, and abatements and could base Massachusetts income tax provisions on provisions of Federal income tax law.

SUMMARY

SECTION 1 of the act inserts a new chapter 164B into the General Laws and establishes a Massachusetts Power Authority, a body corporate and politic with seven members appointed by the Governor to staggered six year terms. The Authority is to establish and operate a bulk power supply system to supply wholesale electric power to utilities throughout the Commonwealth. The primary purpose of the Authority is to supply the Commonwealth with power with the minimum adverse impact on the environment. The Authority is also authorized to engage in research and development of new sources of power, new siting techniques, and methods of environmental protection.

In carrying out its responsibilities, the Authority is authorized to adopt by-laws; adopt an official seal; maintain offices; sue and be sued; construct or acquire facilities either

within or without the Commonwealth; issue revenue bonds and borrow money in anticipation of issuance of revenue bonds; acquire real and personal property; employ professional, managerial and other employees deemed necessary and fix their compensation to be paid solely out of revenues of the Authority; appear before other government agencies; apply for and receive federal or other grants of funds; and enter into contracts and agreements.

The Authority will build and operate all new generating and transmission facilities in the Commonwealth and has the option to purchase existing facilities through negotiation, condemnation, or eminent domain. After an initial two-year period, no other utility may construct a new facility unless the Authority certifies that it lacks the capability to finance the facility and the facility would further the purposes of the act.

The Authority will finance its activities by issuing revenue bonds. The bonds will be exempt from state taxation, but will not be backed by the full faith and credit of the Commonwealth. Power will be sold to other utilities by contract but no special discounts of bonuses to promote the increased use of power may be given. Public hearings are required on all major contracts.

The Authority is required to develop a master, 20-year demand study and siting plan within 18 months of its incorporation, to be updated each succeeding year. Cities will be selected in accordance with the Electric Power Facilities Siting Council Act of 1973. The Governor and the community in which any facility is to be located must affirmatively approve the facility before it can be constructed.

The Authority will be subject to all applicable federal and state environmental standards and must obtain all necessary federal and state permits and complete all necessary environmental impact statements.

The Authority will be exempt from taxation but will make payments in lieu of taxes to cities and towns in an amount equal to the tax which would be paid of the Authority's real and personal property were owned by a private electric utility company.

The Authority is forbidden from engaging in promotional or image advertising. The Authority has the authority to bargain collectively with its employees and is subject to the provisions of Chapter 150 of the General Laws, which governs the conciliation and arbitration of industrial disputes. Employees of the Authority are not subject to the civil service laws and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

SECTION 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provision of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

SUMMARY

SECTION 1 of the act inserts a new chapter 164B into the General Laws and establishes a Massachusetts Power Authority, a body corporate and politic with seven members appointed by the Governor to staggered six year terms. The Authority is to establish and operate a bulk power supply system to supply wholesale electric power to utilities throughout the Commonwealth. The primary purpose of the Authority is to supply the Commonwealth with power with the minimum adverse impact on the environment. The Authority is also authorized to engage in research and development of new sources of power, new siting techniques, and methods of environmental protection.

In carrying out its responsibilities, the Authority is authorized to adopt by-laws; adopt an official seal; maintain offices; sue and be sued; construct or acquire facilities either

within or without the Commonwealth; issue revenue bonds and borrow money in anticipation of issuance of revenue bonds; acquire real and personal property; employ professional, managerial and other employees deemed necessary and fix their compensation to be paid solely out of revenues of the Authority; appear before other government agencies; apply for and receive federal or other grants of funds; and enter into contracts and agreements.

The Authority will build and operate all new generating and transmission facilities in the Commonwealth and has the option to purchase existing facilities through negotiation, condemnation, or eminent domain. After an initial two-year period, no other utility may construct a new facility unless the Authority certifies that it lacks the capability to finance the facility and the facility would further the purposes of the act.

The Authority will finance its activities by issuing revenue bonds. The bonds will be exempt from state taxation, but will not be backed by the full faith and credit of the Commonwealth. Power will be sold to other utilities by contract but no special discounts of bonuses to promote the increased use of power may be given. Public hearings are required on all major contracts.

The Authority is required to develop a master, 20-year demand study and siting plan within 18 months of its incorporation, to be updated each succeeding year. Cities will be selected in accordance with the Electric Power Facilities Siting Council Act of 1973. The Governor and the community in which any facility is to be located must affirmatively approve the facility before it can be constructed.

The Authority will be subject to all applicable federal and state environmental standards and must obtain all necessary federal and state permits and complete all necessary environmental impact statements.

The Authority will be exempt from taxation but will make payments in lieu of taxes to cities and towns in an amount equal to the tax which would be paid of the Authority's real and personal property were owned by a private electric utility company.

The Authority is forbidden from engaging in promotional or image advertising. The Authority has the authority to bargain collectively with its employees and is subject to the provisions of Chapter 150 of the General Laws, which governs the conciliation and arbitration of industrial disputes. Employees of the Authority are not subject to the civil service laws and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

SECTION 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provision of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

Employees of the Authority are not subject to the civil service laws and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

SECTION 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provision of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

SUMMARY

SECTION 1 of the act inserts a new chapter 164B into the General Laws and establishes a Massachusetts Power Authority, a body corporate and politic with seven members appointed by the Governor to staggered six year terms. The Authority is to establish and operate a bulk power supply system to supply wholesale electric power to utilities throughout the Commonwealth. The primary purpose of the Authority is to supply the Commonwealth with power with the minimum adverse impact on the environment. The Authority is also authorized to engage in research and development of new sources of power, new siting techniques, and methods of environmental protection.

In carrying out its responsibilities, the Authority is authorized to adopt by-laws; adopt an official seal; maintain offices; sue and be sued; construct or acquire facilities either

within or without the Commonwealth; issue revenue bonds and borrow money in anticipation of issuance of revenue bonds; acquire real and personal property; employ professional, managerial and other employees deemed necessary and fix their compensation to be paid solely out of revenues of the Authority; appear before other government agencies; apply for and receive federal or other grants of funds; and enter into contracts and agreements.

The Authority will build and operate all new generating and transmission facilities in the Commonwealth and has the option to purchase existing facilities through negotiation, condemnation, or eminent domain. After an initial two-year period, no other utility may construct a new facility unless the Authority certifies that it lacks the capability to finance the facility and the facility would further the purposes of the act.

The Authority will finance its activities by issuing revenue bonds. The bonds will be exempt from state taxation, but will not be backed by the full faith and credit of the Commonwealth. Power will be sold to other utilities by contract but no special discounts of bonuses to promote the increased use of power may be given. Public hearings are required on all major contracts.

The Authority is required to develop a master, 20-year demand study and siting plan within 18 months of its incorporation, to be updated each succeeding year. Cities will be selected in accordance with the Electric Power Facilities Siting Council Act of 1973. The Governor and the community in which any facility is to be located must affirmatively approve the facility before it can be constructed.

The Authority will be subject to all applicable federal and state environmental standards and must obtain all necessary federal and state permits and complete all necessary environmental impact statements.

The Authority will be exempt from taxation but will make payments in lieu of taxes to cities and towns in an amount equal to the tax which would be paid of the Authority's real and personal property were owned by a private electric utility company.

The Authority is forbidden from engaging in promotional or image advertising. The Authority has the authority to bargain collectively with its employees and is subject to the provisions of Chapter 150 of the General Laws, which governs the conciliation and arbitration of industrial disputes. Employees of the Authority are not subject to the civil service laws and rules. Employees of utilities displaced by the activities of the Authority have first preference in employment by the Authority.

SECTION 2 of the act amends section 43 of Chapter 164 of the General Laws to provide that if a city or town votes, in accordance with the provision of Chapter 164, to establish a municipal utility and acquire the facilities of the utility currently serving the community, and the utility refuses to sell its property to the city or town, that the Department of Public Utilities will establish a fair price for the facilities, and the utility will be required to accept the price determined by the department and tender the deed for the facilities to the city or town.

SUMMARY

The proposed legislation would prohibit the possession, ownership, or sale of any weapon from which a shot or bullet can be discharged and which has a barrel length of less than sixteen inches. The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

SUMMARY

The proposed legislation would prohibit the possession, ownership, or sale of any weapon from which a shot or bullet can be discharged and which has a barrel length of less than sixteen inches. The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

SUMMARY

The proposed legislation would prohibit the possession, ownership, or sale of any weapon from which a shot or bullet can be discharged and which has a barrel length of less than sixteen inches. The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

The prohibition would not apply to military personnel, law enforcement officers, federally licensed handgun manufacturers and wholesalers, common carriers in the ordinary course of transport, or to historical societies and museums. The act would not affect the possession of rifles, shotguns, and certain antiques and replicas. The proposal also does not change the existing statutory penalties for unlawful possession, ownership or sale of handguns, including provision imposing mandatory jail sentences.

The proposal would permit owners of handguns to surrender their weapons to any law enforcement agency in the Commonwealth within six months of the effective date of the act without incurring criminal liability. Those surrendering handguns within that six months will be compensated at a rate to be determined by the Commissioner of Public Safety.

SUMMARY

The proposed act would require every beverage container sold or offered for sale in the Commonwealth to have a refund value of at least five (5) cents, and would prohibit the sale of metal beverage containers with flip-tops. It would apply to containers for beer and other malt beverages and to soft drinks. It would not apply to containers for dairy products or natural fruit juices, nor to containers which are biodegradable.

The act would authorize the Secretary of Environmental Affairs to certify containers as reusable or recyclable. It contains both enforcement and penalty provisions and would take effect on February 1, 1977.

SUMMARY

The proposed act would require every beverage container sold or offered for sale in the Commonwealth to have a refund value of at least five (5) cents, and would prohibit the sale of metal beverage containers with flip-tops. It would apply to containers for beer and other malt beverages and to soft drinks. It would not apply to containers for dairy products or natural fruit juices, nor to containers which are biodegradable.

The act would authorize the Secretary of Environmental Affairs to certify containers as reusable or recyclable. It contains both enforcement and penalty provisions and would take effect on February 1, 1977.

SUMMARY

The proposed act would impose a general requirement that every electric utility company charge a uniform rate per kilowatt hour of electricity. The proposed act would except from this general rule rates charged to other electric utility companies and to residential customers who heat their principle place of residence by electricity. The Act would also permit a different rate to be charged residential customers for the first three hundred (300) kilowatt hours they consume each month, and would authorize "peak load" pricing whereby a higher rate than the uniform rate per kilowatt hour may be charged during the periods of the day or seasons of the year when consumption of electricity is the greatest. The Act would authorize the Department of Public Utilities to issue implementing rules and regulations and provides for enforcement.

SUMMARY

The proposed act would impose a general requirement that every electric utility company charge a uniform rate per kilowatt hour of electricity. The proposed act would except from this general rule rates charged to other electric utility companies and to residential customers who heat their principle place of residence by electricity. The Act would also permit a different rate to be charged residential customers for the first three hundred (300) kilowatt hours they consume each month, and would authorize "peak load" pricing whereby a higher rate than the uniform rate per kilowatt hour may be charged during the periods of the day or seasons of the year when consumption of electricity is the greatest. The Act would authorize the Department of Public Utilities to issue implementing rules and regulations and provides for enforcement.

SUMMARY

The Legislature has placed this question on the ballot in order to determine whether the people favor or oppose the construction of an oil refinery and deep water port in Massachusetts. The vote on this question is not binding on the Legislature. The question deals with the general advisability of such construction and is not a specific proposal for a facility. If a specific proposal is made, it would be subject to approval by the communities directly affected and subject to any restrictions imposed by the Legislature.

P. D. 43 — ELECTION STATISTICS FOR 1977

This booklet contains information about elections held in 1977. It lists the dates of the city and town elections, the number of people registered to vote in each precinct of each community, and the number of people who voted in the local election. It does not include the number of votes each candidate received.

In odd-numbered years like 1977, *Election Statistics* also provides detailed results of *special* state elections which were held to fill vacancies. This year there were nine of these elections.

This 1977 booklet also includes a list of mayors and city managers of the cities and a list of the kinds of elections held by each city and town in the Commonwealth. It does not include lists of city and town clerks and election commissioners and of selectmen, but these are available from the Elections Division. Names of other local officials are available from the local clerks.

P. D. 43 in even-numbered years is a larger volume, which gives the results of state primaries and elections for all candidates and questions on the ballot as well as information on local elections.
